However, during Post Qualification, the SCB/LCB must submit the 2019 Mayor's/ Business Permit.

II. Section III. Bid Data Sheet

Particulars	From	To
ITB Clause 29.2	4. Certification that the offered brand is an international brand, and have been continuously marketed in the Philippines for the last ten (10) years; (<i>Original and duly notarized</i>)	4. Certification that the offered brand is an international brand, and have been continuously marketed in the Philippines for the last ten (10) years; For those brands that are have not yet met the 10 years presence in the Philippines but have been able to market in other countries for 10 years, certification that the offered brand is an international brand, and have been continuously marketed in at least five (5) different countries. (<i>Original and duly notarized</i>)
	8. Certificates from ANSI, TIA, EIA and ISO/IEC 11801 that the Service Provider is a certified installer of structured cabling system. (<i>Certified True Copy</i>)	The brand for the cabling should be at least certified by one of the following entities: TIA, EIA, or ISO/IEC11801. (<i>Certified True Copy</i>)

III. Section VII. Technical Specifications

A. Changes

Particulars	From	To
2.2.4. Distribution Switch	2.2.4.5. Performance: Throughput: ≥285 Mbps; Routing /Switching: ≥480 Gbps; Fabric Speed: ≥508 Gbps	2.2.4.5. Performance: Throughput: ≥285 <u>Mpps</u> ; Routing /Switching: ≥480 Gbps
2.2.5. Access Switch	2.2.5.5.11. Supports Energy-efficient Ethernet (80 PLUS, Silver Certified)	☞ < remove the specification 2.2.5.5.11 >

B. Clarifications

Particulars	Bidder's Clarification	DSWD Response
	Can DSWD considers changing "4 units power supplies required" to "2 units power supplies required" in core switches specification since it is standard configuration in industry? And two unit power supplies already ensure redundancy and save power consumption and Opex.	There is no <u>core switch</u> requirement in this project, so this is not applicable.
	Can DSWD add one new feature "Able to stack on spare service port, not through additional special stacking module. Support up to virtualize 4 devices to be one logical device" in core switch specification. This is standard feature for core switch in industry. When core switch expand in future, fully utilize service ports, save Capex. At the same time, it can support more devices to be one logical device easily, simplify topology and management, and protect investment.	There is no <u>core switch</u> requirement in this project, so this is not applicable.
4. Qualification of Service Provider 4.2. The offered brand	Can DSWD change the	Continuously marketed in the

<p>should be an international brand, and should have been continuously marketed in the Philippines for the last 10 years.</p>	<p>requirement to "the brand should be internationally available for 10 years" instead of "locally (PHILIPPINES only) available for 10 years"? International or Global presence assures DSWD of a world-class product and quality.</p>	<p>Philippines or worldwide is acceptable. For those brands that are have not yet met the 10 years presence in the Philippines but have been able to market in other countries for 10 years, the presence of that brand should be at least in five (5) different countries.</p>
---	--	---
