The bidder's SLCC similar to the contract to be bid should have been completed within five (5) years prior to the deadline for the submission and receipt of bids.

II. Section VII. Technical Specifications

Particulars	Bidder's Clarifications	DSWD Response
3. Servers	Does the bidder provide the Server aside from then Business Intelligence (BI) software? If no, can DSWD provide the specifications of the Server in which the BI software will be installed?	<p>No. The DSWD prefers in-house server. The following are the specifications of the server in which the Business Intelligence Software will be installed:</p> <p>Operating System: Windows Servers 2016 R2; CentOS; Ubuntu 18 Processor: Intel® Xeon® CPU CPU: 16-Core RAM: 32GB Disk: 500GB</p> <p>The above specifications are for optimized running of the Business Intelligence Software.</p>
10. Deployment and Turnover	Is there a requirement for implementation services since the specifications only cover software licenses, users' training and support?	The "Deployment and Turnover" part of the Technical Specifications indicate that DSWD expects (onsite) assisted deployment of server and installation of licenses. Onsite mentorship, aside from User's Training, would also be better.

11. Service Support 11.2 On-site support availability	What is the DSWD's expectation for the on-site support availability? Is the requirement within the subscription period only?	Yes, there should be onsite support availability within the subscription period and much better if the winning bidder can accommodate further online support even after the subscription period.
